## Let Our Bodies Speak - LOBS

The project LOBS is an inclusive project and its aim is to connect the world of silence and the world of voices.

It will take part in the Czech Republic, in a camp in Mid-Bohemia, surrounded by woods, the riverside and wonderful nature. There will be deaf and hearing participants in the age of 13 - 17 years from three countries - Germany, Slovakia and the Czech Republic.

**What about the programme?**

The programme will be full of activities, mainly in mixed groups. There will be creative activities (Art), sportive activities, movie making, photo shooting, reflection and many more. One day we'll visit the National Technical Museum in Prague (a workshop is planned). Of course we'll have lots of fun while learning to understand one another. The evenings will also include activities, e.g. cultural evenings, a carnival, games and a camp fire. Don't forget to pack your swim suits - we are directly at the riverside and will swim as well.

**What about the accomodation?**

We'll stay in cottages of the camp. The bedsheets are provided by the camp. In every cottages there is a wardrobe and table, in front of it there are small tarraces.

The showers and toilets are just a few steps from the cottages in the main building.

**Date:** 12th - 19th August, 2018
